

Request Dr. Jacobi For Your Next Event

Dr. John P. Jacobi, OD, FCOVD is a well-known Behavioral Optometrist, dynamic professional speaker, and expert in helping people visually to do the things they want to do. Dr. Jacobi is the owner of Suburban Eye Care where he and his team have helped to save, restore and improve vision for over 20 years. As a Fellow of the College of Optometrists in Vision Development and the International Academy of Low Vision Specialists, he has achieved an elite status among his colleagues. His passion for helping to solve cases for both young and old is tangible through his powerful speaker talks that empower other professionals to provide help when and where it's needed most.

Informative Eye Care Talks

Proactive Through Education.
Custom Topics Available.

VISION THERAPY TOPICS

80% of learning is visual. To help solve underlying issues that may be affecting student learning, performance and success, the following workshops are being offered:

- + **Fundamentals of Visual Skills**
An overview of the visual system needed for learning to occur
- + **Visual Information Processing**
Find out how you can help your students process visual information
- + **Activities to Stimulate the Visual System**
Learn strategies to integrate vision building into classroom activities
- + **Attention & Vision Related Learning Issues**
Many signs of A.D.D. are similar to those of visual deficits. Examine vision issues may mimic or complicate what is commonly called A.D.D. to best approach student learning.
- + **Defining & Overcoming Visual Dyslexia**
A lack of understanding of the Dyslexic condition has led to fear and resignation. Learn how to approach a student whose visual skills are interfering with learning.

LOW VISION TOPICS

Help is possible for those with low vision. To help restore help to professionals and patients alike, the following workshops are being offered:

- + **Life After Vision Loss**
Overcome vision loss by learning how a more fulfilling life is possible if you want it.
- + **Better Sight at Night**
Vision changes after 40. Learn how better, safer, more comfortable sight at night is possible.
- + **Low Vision, Veggies & Vitamins**
Be proactive; learn how decisions you make with nutrition and lifestyle can slow down or prevent vision loss.
- + **Driving with Macular Degeneration**
Learn about the vision laws in Michigan and how to keep driving.
