

Advanced Optometry

"New Technology, Old Fashion Care Since 1983"

Dr. Larry Simpfenderfer

"When I started the practice back in the eighties, I made it my mission to offer my patients thorough, friendly optometric care. I treated them like I would like to be treated, like family. Nothing has changed over the years, and I am still committed to continuing the tradition for as long as I continue to practice optometry"

A COMMITMENT TO EDUCATION

"Education is the basic foundation for any doctor. However, a degree is just the beginning. To bring my patients the most advanced optometric care possible means education is a continual process that never really ends."

Bachelors Degree: UC Riverside

Masters of Science: Humboldt State University

Doctor of Optometry: UC Berkeley

INVOLVED IN THE PROFESSION

"Every time I meet with my colleagues we share new ways to bring you the highest quality optometric care and the latest techniques available. Staying active in my professional associations is a powerful way to ensure that you get the very best optometric care possible."

Member: American Optometric Association,
California Association

Attended: Conferences and Seminars Totaling
over 750 hours of continuing education
over the years to keep up with the
latest advances.

ACTIVE IN THE COMMUNITY

"I believe in giving back to the community what it has given me. So over the years I have been very active in Lodi sponsoring, coaching, and fund raising for youth sports. I have taught Sunday School from kindergarten to college and served on my church's council, along with other charitable organizations.
