

CONTACT LENS PATIENTS

A complete eye exam and contact lens evaluation is done on each contact lens patient every year as required by law. Your contact lens fee is **not** included in the routine exam fee. This contact lens fitting fee amount will vary based upon the type of contact lens the doctor prescribes. The fee must be paid at the initial exam and fitting.

A follow-up exam may also be needed and is included at no extra charge for up to four (4) weeks after the initial exam and contact lens fitting. After four weeks there will be a reasonable fee for follow-ups. You can expect we will do everything possible to make you a happy and successful contact lens wearer.
