Cody J. Age 12

Start Date 8/21/08

Likes sports, especially
Motocross Racing.

I am so glad that I was able to get my Gentle Vision Shaping lenses. They help me to see a lot better in school and when I race Motocross, I can finally see the track in front of me. I can see my Dad signaling to me when to go faster and when to hit the brakes.

I feel like I can race a lot better now!

Flying high, Cody takes the checkered flag

I have worn glass or contacts since third grade, and for the first time in 27 years I have peace of mind. I do not have to worry about glasses getting broken or the wind or dust irritating my contacts. I have more freedom in the things that I do.

Loves Gymnastics and Horseback riding

I love Gentle Vision Shaping. IT ROCKS!! Now when I am in the car, I don't have to ask my Mom what time is it. I can see Myself. Also when I do gymnastics, I can see the vault clearly and when I look down, I can see the mark I start at.

Now my sister asks me all the time if I can see this or that! Thank you for making me see better.

Likes sports, especially swimming and soccer.

I like Gentle Vision Shaping because now I don't have to wear glasses that hurt my ears or goggles when playing sports. I don't have to worry about my glasses falling off, fogging up or breaking.

I especially love to go swimming and seeing clearly underwater.

You should try them, you'll like them too.

Gentle Vision Shaping

Ever since I have been using Gentle Vision Shaping Lenses, (Its been about a week) I've been able to see a lot clearer. When Dr. Weshefsky first checked my vision, my left eye couldn't even see the biggest letter at the top of the eye chart, it was horrible! My vision was 20/400 but after sleeping in my lenses for just one night, I was able to read 20/20. IT WAS AWESOME!

I love Gentle Vision Shaping and recommend it to everyone.

Gentle Vision Shaping

At first, I was scared, I couldn't even put eyedrops in my eyes because I thought it would hurt. The first night, my mom put my retainer lenses in, I was very happy because it didn't hurt. Later on, I learned how to put them in and take them out by myself. Now, I can see perfectly, when I play the piano I don't have to put my glasses on my nose or squint at the notes. I can now see when I go swimming, before I could only see "blobs" underwater. I can also see when I play soccer without having to wear an uncomfortable eyeglass band around my head.

I hope you try Gentle Vision Shaping because it is a great experience for me.

Gentle Vision Shaping

I have been wearing Gentle Vision Shaping Lenses for over 10 years. I started because I was having trouble with soft contact lenses. Sweat would get into my eyes and blur my vision when playing volleyball and that was inconvenient.

When riding my motorcycle soft lenses would dry up and blow right out of my eyes. That was dangerous!

I had to find a better way and Gentle Vision Shaping was the answer that I was looking for. It has given me the freedom to lead an active life without having to worry about my vision.

I only wear my retainers for two nights per week and my vision is better than 20/20 all week long.

Even after 10 years, I still think Gentle Vision Shaping is one of the best things I have ever done.

The changes I have noticed are that I can see even better after taking out my Gentle Vision Shaping lenses than I could wearing regular contact lenses. Everything around me appears sharper.

My life has improved with Gentle Vision Shaping because I no longer have to go to the trouble of putting contact lenses in during the morning or worry about going through the day if the lenses are irritating or scratchy.

I would recommend Gentle Vision Shaping to a friend or family member because it is great to simply put in the lenses at night and let them do the rest.

I'm nearsighted. I used to need to wear glasses or contacts and I have got to tell you, whether it was in the gym, on the golf course, the racquet ball court, wherever, it was just a pain. So many times I wished I had my perfect vision back.

Now I do thanks to Gentle Vision Shaping. And guess what I see perfectly, Superman's got nothing on me with his x-ray vision. I feel like I can see through walls.

And you know what, I've got my active lifestyle back, I can play golf, racquet ball, and even soccer without the hassle of glasses or contact lenses. Thanks to Gentle Vision Shaping, I've got my perfect vision back and it is fantastic.

After wearing contacts and glasses for the past 22 years, Gentle Vision Shaping is the best thing I could have done.

Thank you Dr. Weshefsky!
